Maribor

Program at Glance

Welcome Address

We would like to invite you to join us for the sixth course in endoscopic surgery of the paranasal sinuses and skull base. The course alternates between two cities and two countries: Maribor Slovenia and Zagreb Croatia. All our courses received highest marks from the participants from all over the world. The course is practically oriented and offers a significant time in the dissection room. All participants are working on fresh frozen specimens using the latest technology the industry can offer.

The facility where the course is held allow us to divide participants into two groups. While one group is dissecting, the other group observes and learns through live prosection performed by the faculty. In this way participants spend almost 20 hours in dissection/prosection rooms.

We will host the most prominent international faculty: Paul Gardner and Carl Snyderman from University of Pittsburgh, Mr. Rajiv Bhalla from The Manchester University, Peter Valentin Tomazic from Graz and Chris Quitter from South Africa.

We'd like to invite you once again to join us at this event and hopefully we see you in Maribor, Slovenia

Course Co-Directors

Boštjan Lanišnik, MD, PhD

Tomislav Baudoin, MD, PhD
